PTO Form 1960 (Rev 9/2007)
OMB No. 0651-0050 (Exp. 07/31/2017)

Request for Reconsideration after Final Action To the Commissioner for Trademarks:

Application serial no. **79141175** has been amended as follows:

ARGUMENT(S)

In response to the substantive refusal(s), please note the following:

In the final office action mailed on November 22, 2014, the Examining Attorney continued its refusal of the mark on the grounds that there is a likelihood of confusion with services listed in International Class 39 in Registration Nos. 2089193, 2471934, and 3881931 under Trademark Act §2(d), 15 U.S.C. §1052(d).

POWERED BY PEGASUS (Registration no: 2471934): International Class 39 in Registration No. 2471934 was cancelled entirely. Pursuant to the telephone conference between the Examining Attorney and the undersigned, the Applicant believes that Examining Attorney shall withdraw her likelihood of confusion refusal with regard to this registration.

PEGASUS AIR EXPRESS INC Logo (Registration No. 2089193): This registration, with its goodwill, was assigned to the Applicant. The Applicant filed a request with the USPTO to record the assignment on May 21, 2015. The request was not processed by the USPTO. Please see enclosed the copy of the assignment and request for recordation of assignment with the USPTO as Exhibit 1. Since Applicant is now the owner of the cited Registration No. 2089193, the Applicant requests withdrawal of the likelihood of confusion refusal as to this registration.

PEGASUS SOLUTIONS (Registration No. 3881931): The Applicant filed a Petition to Cancel the cited Registration no. 3881931 on May 22, 2015. Accordingly, the Applicant requests suspension of this application pending the outcome of the said cancellation proceeding. Please see enclosed the copy of the Petition to cancel and the filing receipt as Exhibit 2.
The Applicant, simultaneously with this Request for Reconsideration, files a Notice of Appeal seeking

suspension of the appeal proceeding pending the outcome of the Request for Reconsideration.

PETITION FOR CANCELLATION

Petitioner, Pegasus Hava Tasimaciligi Anonim Sirketi ("Petitioner"), a Turkish joint stock company having its principal place of business at Aeropark Yenisehir Mahallesi, Osmanli Bulvari No.11A; Kurtkoy Pendik; Istanbul, Turkey (formerly was Aeropark Yenisehir Mahallesi, Osmanli Bulvari No.11; Kurtkoy Pendik; Istanbul, Turkey), believes that it is and will continue to be damaged by Registration

No. 3,881,931 (the “Registration”) in International Class 39, and hereby petitions to cancel International Class 39 only under the provision of 15 U.S.C. §1064(3). As grounds for cancellation, Petitioner alleges that:

1. Petitioner is the owner of United States Trademark Application No. 79/141,175 (the “Application”) for the mark PEGASUS AIRLINES, in connection with “air transport services” in International Class 39. The filing date of the Application is October 10, 2013. The print-out of the Trademark Status & Document Retrieval (“TSDR”) Status Page from the United States Patent and Trademark Office (“USPTO”) online database for the said Application is attached hereto as Exhibit 1.

2. On information and belief, the current owner of the Registration is Pegasus International Ventures, LLC (“Registrant”), a Delaware limited liability company.

3. Pursuant to USPTO’s online database for the said Registration, the principle place of business of Registrant is 1100 Glendon Avenue, Suite 700, Los Angeles, California 90025 United States.

4. On information and belief, the current mailing address of the Registrant is 2121 Avenue of the Stars, Suite 3400, Century City, California 90067.

5. Pursuant to the TSDR records, on October 17, 2001, Pegasus Solutions, Inc., a Delaware corporation with the principal address of 3811 Turtle Creek Blvd., Suite 1100, Dallas, Texas 75219, filed Application Serial No. 76/326,776 for the mark PEGASUS SOLUTIONS (the “Mark”) in International Class 39 for “providing information and reservation services in the field of travel via global computer networks” based on use in commerce under Section 1(a) of the Trademark Act, 15 U.S.C. Section 1051(a), declaring that the Mark was first used at least as early as May 2000, and first used in interstate commerce at least as early as May 2000, and that the Mark was in such use on the filing date of the application. On July 26, 2002, the description of services in International Class 39 was amended through a Response to

Office Action as “providing information and reservation services in the field of travel transportation via global computer networks” [Hereinafter referred to as “Amendment”]. The copy of said Response to Office Action is enclosed hereto as Exhibit 2. Accordingly, the said application registered for “providing information and reservation services in the field of travel transportation via global computer networks” in International Class 39 under the Registration based on declaration of use filed with the initial application under Section 1(a) of the Trademark Act, 15 U.S.C. Section 1051(a) on November 30, 2010. The print-out copy of the TSDR Status Page from the USPTO online database for the said registration is attached hereto as Exhibit 3.

6. Pursuant to the records of the USPTO, on January 8, 2015, Pegasus Solutions Inc. (which changed its name to Dhisco Electronic Distribution, Inc.) assigned its entire interest of the Registration to Pegasus International Ventures, LLC. The print-out of the record of the Trademark Assignment Abstract of Title for the said change of name and assignment is attached hereto as Exhibit 4.

7. Petitioner has standing and is damaged by the existence of the Registration because Applicant’s Application has been refused on the grounds that it is likely to cause confusion with the services listed in International Class 39 in the Registration under Trademark Act Section 2(d), 15 USC §1052(d). Said refusal was made “final” and was issued by the USPTO effective November 22, 2014. Continued registration of the Mark in International Class 39 creates statutory rights in Registrant in violation and derogation of the rights of Petitioner, resulting in harm, detriment, and damage to Petitioner.

CLAIM ONE: ABANDONMENT

8. Petitioner hereby incorporates by reference the preceding paragraphs as if they were fully set forth herein.

9. Prior to initiating this proceeding, the Petitioner conducted an investigation directed to Registrant’s use of the Mark but was unable to locate any

evidence that Registrant's Mark was currently being used or had ever been used in commerce in connection services in International Class 39 claimed in the Registration.

10. Upon information and belief, Registrant is not rendering the services listed in International Class 39 on its website at www.pegas.com. The print-out of copies of the Registrant's website is enclosed hereto as Exhibit 5.

11. Upon information and belief, in the "About Pegasus Solutions" section of the Registrant's website at www.pegas.com, there is no text advertising that Registrant provides information or reservation in the field of travel transportation via global computer networks.

12. On information and belief, Registrant has either never used the Mark in commerce in connection with any of the services listed in International Class 39 in the Registration or, to the extent the Mark was ever used, has discontinued use of the Mark in commerce with no intent to resume such use, thus abandoning the Mark and rendering International Class 39 in the Registration subject to cancellation.

13. On information and belief, Registrant has not used the Mark in commerce in connection with "providing information and reservation services in the field of travel transportation via global computer networks" for at least three consecutive years. Thus, the Mark is abandoned for the said services.

CLAIM TWO: VOID AB INITIO FOR NON-USE

14. Petitioner hereby incorporates by reference the preceding paragraphs as if they were fully set forth herein.

15. On information and belief, Registrant has made no bona fide use of the Mark in interstate commerce at any time on or in connection with the services in International Class 39 on or before October 17, 2001 filing date of the Registration.

16. On information and belief, Registrant's declaration of use filed on October 17, 2001 filing date of the Registration was false and material misrepresentation of fact because Registrant was not using the Mark in interstate commerce on or in connection

with “providing information and reservation services in the field of travel transportation via global computer networks” in International Class 39 on the filing date or on the date when the Amendment was filed.

17. A declaration of use, such as the allegedly false declaration of use described above, is a prerequisite to issuance of a registration. Thus, the misrepresentation described above was material to the registrability of the Mark and issuance of the Registration. Thus, the Registration is *void ab initio*.

WHEREFORE, Petitioner prays that this Petition for Cancellation be sustained in favor of Petitioner, and Registration No. 3,881,931 be canceled in part as to the services in International Class 39 and the entire International Class 39 be deleted from Registration No. 3,881,931.

The required fee under 37 C.F.R. §2.6(a)(16) of \$300.00 is being submitted with this electronic filing. Should any additional fees be required, please charge such necessary fees to our Deposit Account No. 50-3937.

Respectfully submitted,

Date: May 22, 2015

AMENDMENT

Sir:

Please amend the application, as follows:

1. Insert the following claim to ownership: Applicant is the owner of U.S. Registration Nos. 2,183,373 and 2,471,934.
2. Insert the following disclaimer: Without prejudice to common law rights and other rights arising from use, and for the purposes of this registration only, no claim is made to the exclusive right to use SOLUTIONS apart from the mark as shown.
3. Substitute the following identification of goods in Class 9: computer database software providing information about hotel properties, room rates and availability and to book and cancel reservations via the Internet and for providing connections between hotel reservation systems and global distribution systems used to book accommodations and between travel related websites and hotel reservations systems.
4. Substitute the following recitation of services in Class 35: web-based software services, namely, property management, customer service, reservations, sales and catering, point of sale and accounting in connection with the operation of hospitality, hotel and restaurant businesses and travel agent payment processing.
5. Substitute the following recitation of services in Class 39: providing information and reservation services in the field of travel transportation via global computer networks.
6. Amend the existing Class 42 services to read: providing information and reservation services in the field

of temporary accommodations via global computer networks; providing access to hotel reservation information and reservations systems information through global computer networks; providing and operating web sites for hotels; providing online booking engines for hotels; providing customized online web pages featuring user-defined information, which includes search engines and online web links to other web sites regarding hotel reservation information and reservation systems, hotel chains, individual hotel properties and the availability of hotel rooms and rates, and enabling users to make reservations of hotel rooms; computer software support and maintenance services.

REMARKS

The claim to ownership has been entered as requested, and the disclaimer of SOLUTIONS has been entered as requested.

The identification of goods and recitation of services has been amended as closely as possible to the Examining Attorney's suggestions. We trust the goods and services as amended are acceptable.

The Examining Attorney has suggested that should Application No. 76/142,869 for the mark PEGASUS DIGITAL owned by Pegasus Digital, Inc. for computers, computer network servers, computer printers, computer scanners; modems and communications interface cards; digital cameras; digital cameras for uploading ephotos, multimedia files and images to and downloading from computers; wired or wireless communications terminals, handheld portable terminals and organizers, and Internet web browsers, all for connecting to and exchanging information over the Internet and local area, wide area and enterprise networks; computer e-commerce software to allow users to perform electronic business transactions via the Internet or other computer networks; computer software, software development tools and utilities software used for the creation, enhancement, modification, transmission, reception, exchange, storage, and synchronization of information, messages, audio and video data and files, multimedia files, photographic and graphic files, ephotos and images, and wired or wireless e-mail with or without attached files, ephotos and images, and instruction manuals sold as a unit therewith, in Class 9 and electronic messaging services, wireless messaging services, electronic commerce services, and Internet service provider services for others; computer services, namely, creating, designing, implementing and maintaining web sites for others; web site hosting for others; custom design of software, hardware, wired and wireless communications devices, digital cameras, computer and communications chips and circuit boards for others; providing technical consultation services with regards to creating, enhancing, modifying, transmitting, receiving, exchanging, storing and synchronizing information, audio and video data and files, multimedia files, ephotos, photographic and graphic files and images, and e-mail with or without attached files and images; consulting and technical assistance services with regards to computer software, computer hardware, digital cameras and imaging, communications, synchronization of data between computer systems and between portable electronic devices, web site development, web site operation and maintenance; maintenance and support services for computer software, in Class 42, go to registration, it could be cited against applicant's application. Application No. 76/142,869 has been published for opposition.

As the Examining Attorney is now aware, applicant is the owner of registrations for the marks PEGASUS SYSTEMS INC. and POWERED BY PEGASUS, Nos. 2,183,373 and 2,471,934 for goods and services related and similar to the goods and services of this application. These registrations were registered as of August 25, 1998 and July 24, 2001. Also, applicant's application for the mark PEGASUSCENTRAL, Application No. 76/270,939, also for similar and related goods and services to applicant's application, is in line for acceptance for publication. That application was filed on June 13, 2001. Neither of applicant's registrations nor applicant's application were bars to registration of the application cited by the Examiner. Therefore, the application cited by the Examiner should not be a bar to registration of applicant's mark.

It is also apparent from differences between the goods and services of the parties that there would be no likelihood of confusion arising between the marks.

In view of the foregoing, acceptance of applicant's application for publication is requested.

Respectfully submitted,
/johnmcone/

What We Do

Pegasus delivers crucial sources of global business to hotels with advanced and affordable connectivity to online, global distribution system (GDS) and mobile channels. Bridging innumerable gaps to connect hotels to the global distributors that promote and sell them, Pegasus has a long history of driving the hospitality industry forward through technological innovation.

Offering the fastest and most reliable central reservations system (CRS) available, Pegasus delivers prolific global connections with the superior functionality essential to selling hotel rooms.

Pegasus draws upon a rich pedigree, spanning both the hotel and technology spaces, to singularly focus on what hotels expect and need of their reservations and booking solutions. The stability of these solutions is also furthered by Pegasus' status as a debt free company.
